CLAMORING FOR PEACE

Strong Sentiment In Spain In Favor Of Surrender

QUEEN REGENT AND SAGASTA ARE AT VARIANCE

Washington, July 8—Special—A dispatch from Shafter says at the request of the Spanish general in Santiago, employees of the English Cable Co., were sent to him to telegraph his government as to surrendering.

New York, July 8—Special—An Evening Journal dispatch from Rome quotes the Spanish minister as saying if all the powers invite Spain to conclude a peace, Spain will yield.

Washington, July 8—Special—The state department has received a dispatch from a reliable agent in Europe confirming the statement that Spain is liable to sue for peace this week.

Agitation For Peace.

London, July 8—Special—It is learned from Madrid that the cabinet is gravely discussing the means whereby peace with the United States can be secured. Without a navy save the few ships under command of Camara, which cannot hope to contend against Admiral Dewey's superb squadron, and practically without an army outside of Cuba, the nation is in desperate straits and will fall an easy victim to the first revolutionary leader who gathers an army about him. The better class of Spaniards have always opposed war with the United States, knowing that Spain was greatly overmatched, and are now urging upon the government the need of making peace overtures before the last of the nation's colonial possessions are wrested from it. For a time the government turned a deaf ear to these people, but now they are getting a hearing and their protestations are having an effect. The provinces are even more in favor of peace than the capital.

Feeding the Refugees.

Santiago, July 8—Special—The labor of feeding the foreign refugees is becoming onerous. The supplies at Gen. Shafter's disposal are limited, owing to the difficulties of transportation, but everything possible is being done for the foreigners. Rations are issued to them regularly, though they are not as plentiful or as good as Shafter would like to have. The foreign consuls are working in conjunction with the American commander, and are satisfied that everything possible is being done. All foreigners are protected from the weather. The consuls have proposed to bring supplies from the seaboard, and the proposition will probably be accepted.

Germany is Singing Small.

Washington, July 8—Special—The absence in Dewey's message noting the arrival of reinforcements at Manila of any indications of trouble with the German naval commander there leads officials here to believe that the Berlin authorities have heeded the warning sent from London some time ago, and ordered the admiral to preserve a strict neutrality. It is believed here that all danger of German intervention in the Philippines has passed.

Has No Political Significance.

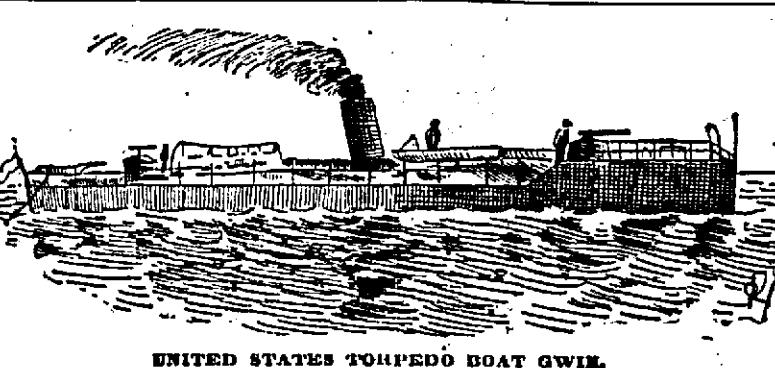

Washington, July 8—Special—There is no uneasiness here over the announcement that Austria will send a war vessel to Spain to remove the queen regent to a place of safety. The act is one dictated by motives of humanity, and has no political significance. The queen regent of Spain is niece of Emperor Francis Joseph, of Austria, and it is only natural that he should feel solicitude for her safety.

Casualties at Santiago.

Siboney, July 8—Special—The recapitulation of the casualties to the United States forces at Santiago is as follows: Killed, one hundred and twenty-two; wounded, six hundred and twenty-three; missing, ninety-two.

Sagasta and Queen Disagree.

Madrid, July 8—Special—At yesterday's sitting of the cabinet, the queen regent, who presided, strongly contended that hostilities must continue. Sagasta believes it is

He was brought to this city early this morning. At Westfield, where the crime was committed, the prisoner waived all formalities and entered plea of guilty and started for Waupun in charge of Sheriff O'Connor of Marquette county.

They have authority to name President Dole and Chief Justice Judd as members of the commission on the part of the Hawaiian republic.

Surviving Passengers of La Bourgogne Disagree as to the Conduct of the Crew.

Boston, July 8—[Special]—The steamer Hallifax arrived this morning with the La Bourgogne survivors. Interviews with the passengers show that opinion is divided as to the conduct of the crew. No official notice has been given that an investigation is planned.

YOUTHFUL POSTOFFICE THIEF

Henry Micha goes to the Reform School for differing from Uncle Sam.

Henry Micha, an eleven year old youth of Platteville, arrived in the city this morning on his way to the state industrial school for boys at Waukesha, where he will probably remain till he is of age.

Micha recently broke into the Platteville postoffice and stole some of Uncle Sam's money. His tender age was all that saved him from going to state prison. The young man, who was in charge of Sheriff Fossatt, of Grant county, seemed contented.

OPEN FIRE TOMORROW

All Preparations Complete For Santiago Bombardment.

EARLY SURRENDER OF THE CITY CONFIDENTLY EXPECTED

New York, July 8—Special—A Washington special to the Journal says Shafter has notified the war department that the army and navy will make a joint attack on Santiago tomorrow. Shafter's fighting force will be about twenty-eight thousand. Gen. Linares has nineteen thousand men.

Washington, July 8—Special—It is reported this morning that it was decided at yesterday's war conferences that the bombardment of Santiago should commence tomorrow.

Washington, July 8—Special—The bombardment of Santiago will begin tomorrow morning unless the city shall be surrendered before that time. All the heavy guns of Gen. Shafter's command have been placed in position, and command every point where the Spaniards can take refuge. The foreign inhabitants are nearly all safe within the American lines. It is believed the works will be reduced in a few hours, and the American flag float from the government house.

Surrender Is Probable.

Washington, July 8—Special—The silence of the batteries and troops in and around Santiago has given rise to the belief that Gen. Toral will surrender the city without resistance. It is believed that the supply of ammunition in the forts has run low, and it is known that provisions are exceedingly scarce. The failure of Pando to reinforce the garrison has likewise made the condition more desperate. It is thought that a bombardment tomorrow as promised will be averted by a surrender. Resistance on the part of Linares, weakened as he has been by the destruction of Cervera's fleet, is hopeless, and to permit a bombardment would be merely a reckless sacrifice of life.

Vagrant Vessels to be Destroyed.

Washington, July 8—Special—A hunt throughout the West Indies will soon be made by the American warships. The object is to destroy or capture Spanish warships scattered throughout the coves on the Cuban coast.

Off For the Front.

Washington, July 8—Special—Gen. Garretson telegraphs that the Sixth Massachusetts and one battalion of the Sixth Illinois, 1,800 in all, leave Charleston today on the Yale and Columbia.

Havana In Mourning.

Madrid, July 8—Special—A dispatch from Havana says the public buildings and theatres are closed and the city is in mourning for the loss of Cervera's fleet and hundreds of his men.

Bears On the Maine Tragedy.

Off Santiago, July 8—Special—An examination of the hulls of the destroyed Spanish cruisers shows conclusively that the Maine was not destroyed by an internal explosion.

It Is Denied.

Washington, July 8—Special—An official denial is made that the Vesuvius has entered Santiago harbor, or that news of the surrender of the city has been received.

Camara's Ships Disabled.

London, July 8—Special—Dispatches from Port Said report that Camara's fleet is in a deplorable condition. The Spanish engineers have ruined the boilers.

Ordered to Manila.

Rome, July 8—Special—The Italian cruisers Piedmont and Docqualia have been ordered to the Philippines.

NEWS FROM NEARBY NEIGHBORHOODS

INCOMINGS AND OUTGOINGS OF ROCK COUNTY PEOPLE.

Gossip of a Personal and Business Character Cleared By Gazette Reporters in the Garden Spot of Wisconsin—Religious and Social Notes.

THE GAZETTE AGEDAY,
W. W. CLARK, Manager,
Milton, Wis., July 8, 1898.

At the annual school meeting held on Thursday evening, E. D. Bliss was elected as Director, vice J. B. Tracy. The usual appropriations were voted for teachers' wages and incidental expenses. The board were instructed to have a forty foot tower erected upon which the old liberty pole is to be placed. A \$300 appropriation was also voted to finish off and furnish a recitation and library room in the basement, but the proposition to put in a heating and ventilating plant to cost \$1,000, started an argument and the meeting adjourned one week, at which that subject will be taken up and acted upon. An additional tax of \$1,500 to \$1,800, if the same be levied at one time in the district, will make a sum of our taxpayers rather weary next December.

The class of '96 in Milton college held a reunion and picnic at Lake Koshkonong Wednesday. They were all present as follows: Miss Mamie Whitford, Westerly, R. I.; Miss Addie Davis, Janesville; Dr. B. A. Brown, Milwaukee; Prof. H. T. Plumb, Sabina, Idaho; Prof. W. B. Wells, Idaho Falls, Idaho; O. A. Richardson, Evanston, Ill.; and Principal A. E. Whitford, Milton. The invited guests present were Misses Gertie Wells, Susie B. Davis and Hede Leonard.

Alex. White, of Porter, who is in the field as a candidate for the assembly district, was in town Wednesday interviewing the voters in the interest of his candidacy. Mr. White is a long time resident of the district and represents his town on the county board. He had an able body guard in the person of T. B. Earle, of Edgerton.

Mrs. E. B. Rogers will spend this month and August in Chicago, as the guest of her son, Dr. F. D. Rogers, and wife.

Miss Fenner, of Alfred Station, N. Y., is the guest of Milton relatives.

The Rebekahs enjoy a picnic at Lake Koshkonong, Thursday.

Mrs. B. B. Newcomb, of Minneapolis, was entertained by Mr. and Mrs. B. Williams this week.

Dr. Brown extracts teeth with added pleasure this week. They have a Fourth of July girl baby at their house. That settles the future war question in this country.

Mrs. D. C. Pratt, of Appleton, well known to the early residents of this village, is visiting her daughter, Mrs. E. R. Spaulding.

N. O. Moore, of the Journal office, is back from Chicago.

Mesdames W. W. Clarke and M. A. Blaville were the guests of Janesville friends Wednesday.

A parody on the song "Never Take the Horse Shoe from the Door," might be written in this style, "Never Take the Wood-pile from the Park."

Dr. J. M. Stillman will soon leave for Rhode Island, where he will spend his summer vacation enjoying the ocean breezes and bathing.

Miss Nellie M. Brown, of the college faculty, will spend the coming year at the University of Chicago, taking a special course in English. Her successor has not yet been appointed.

Miss Nellie Maxson will teach the Vickerman school, two miles east of the village, the coming year.

Porter.

Porter, July 8—Miss Maggie Humphrey is spending the week with her friend, Maggie McCarthy. One of the boat houses at Glubbs' Lake was set afire Monday night, and a boat belonging to the O'Neill brothers was burned. It was a cowardly act, and the miscreants, if found, will be punished to the full extent of the law. Mark and Gertie Nichols spent a few days the first of the week with relatives in Chicago. N. Dimick, of Beloit, was the guest of relatives the first of the week. John Murphy, of Chicago, who has been visiting his parental home near Brooklyn, was a caller Sunday. Some of our young men assisted the Leydenball ball players defeat the Edgerton High School nine last Saturday in Edgerton. Most of our people celebrated the glorious Fourth in Edgerton, and all feel proud of the able address delivered by Attorney C. J. Hendricks, as this was his former home.

Afton.

Afton, July 8—The entertainment and supper given by the Ladies' Aid society at the home of Mr. and Mrs. J. B. Humphrey last Friday evening, was a very successful as well as enjoyable affair. There was a large attendance, many being present from Shoshone and vicinity. The program was well rendered, and consisted of piano solos by George Dower, Misses May

Starr, May Humphrey and Bertha Hammel, and Master Frank O. Miller; a whistling solo by Mrs. Sophia L. Bowditch, and patriotic recitations by the children. The pianists acquitted themselves with credit. Mr. Dower's performance on the instrument showing him to be a skilled and gifted musician, while the work of the pupils demonstrated his ability as a teacher. Mrs. Bowditch made a decided hit with her whistling, and had to respond to an enthusiastic encore. The supper was a bounteous one, and reflects great credit upon the management. The large rooms were tastefully decorated, while the spacious lawn was gay with many colored lanterns. It was a very pretty affair, and thoroughly appreciated by those present. At the annual school meeting of district number four, held last Tuesday evening, Peter Drafahl was re-elected director for the ensuing three years, receiving 18 out of 21 votes cast. It was voted to raise \$500 for school purposes the coming year. The semi-annual election of officers was held in the Baptist Y. P. S. C. O., last Sunday evening with the following result: President, David Throne; vice president, Cora B. Osgood; recording secretary, Albert B. Waite; corresponding secretary, three years, Sarah Z. Drafahl; treasurer, J. F. Boile. The society is in a prosperous condition. Loren E. Copeland came up from Woodstock, Illinois to spend the Fourth with Afton friends. Mrs. J. C. Eddy and two sons, Albert and Frankie, celebrated the Fourth with Mrs. Eddy's parents at Evansville. Miss Virginia A. Scott is visiting with friends in northern Illinois. Mrs. Emma Bryan and son Ralph spent last week in Milwaukee taking in the carnival celebration. Miss Vienna P. Waite returned home from Woodstock, Ill., last Sunday. Rev. T. C. Pedersen, of Wyocena, Wis., occupied the pulpit at the Baptist church last Sunday. Miss Mary E. Scott is spending a couple of days with Beloit relatives. The Modern Woodmen meet Saturday evening.

He resided in this place during his school days and has many friends here who wish him success. Fred L. Burdick, wife and son, of Janesville, have been spending a few days with relatives in this place. John H. Owen was elected director at the annual school meeting, succeeding H. H. Stockman. Lillian Coon, and brother Ross, have gone for a visit with friends at Walworth and Lake Geneva. Mrs. J. A. Martin, of Stoughton, is the guest of her daughter, Mrs. Robt. Kelly. Coon has gone to Minnesota for two or three weeks in the interest of the insurance companies that he represents. Miss Mabel Nashall has returned to Evansville, after a few days' visit at J. J. Dennett's.

McFarlan.

HALSEY WANTS VINDICATION

Asks An Investigation of Occurrences That Shadowed His Reputation

Rev. Sabin H. Halsey, formerly assistant pastor of Court Street Methodist church, of this city, has asked for an investigation of the Racine incident, in which it has been openly stated Mr. Halsey figured as having been intoxicated, arrested and then discharged from custody upon payment of the costs. Mr. Halsey and his friends have all along asserted that he has been placed in a wrong light by the reports which have been circulated concerning the matter and Presiding Elder Pease of Janesville district has been asked to appoint an investigating committee to look into the matter, and report it to the conference in September. That committee has not been appointed as yet, but will probably be named shortly, and the investigation will take place during the summer. A consul will be appointed for the district and Mr. Halsey will either conduct his own case or call in minister to assist him. Mr. Halsey is at present at Pleasant Prairie, where he has been resting, having been threatened with nervous prostration.

SEND A RELIEF EXPEDITION.

Lady Aberdeen Tells of the Order's Klondike Undertaking — The Nurses Will Work Under Direction of Medical Men There—Will Be Especially Protected.

The announcement of Lady Aberdeen that the Victorian Order of Nurses will send a relief expedition to the Klondike this spring proves the live interest of that organization in the pressing needs of the time. The advance of the gold seekers into the inhospitable region of the Yukon resembles the invasion of an army, and it is highly fitting that the sisters of the Red Cross should go with them.

The nurses who compose the expedition will find that theirs will be no easy task, but the reward found in the gratitude of the voluntary exiles whose pillows they will soften, will be of the richest. Lady Aberdeen has sent the following letter to the Canadian press:

"Every newspaper we take up tells us of fresh travelers to the Klondike. Allow me to tell your readers of the Victorian Order of Nurses' Klondike expedition. Those who have read letters from pioneers who have gone into the country, and especially any who have

Frontier Currency.

A Western paper tells a story of an epoch in the history of the Montana mining camp when there was no money or lawful currency of any kind in the camps, nor any credit to base a private circulation on, but when the extremely high price of eatables suggested and at the same time supplied the want of a circulating medium. One man who continues to live in that region tells of the time when he bought a box of matches with watermelon, and received as change two muskmelons. Another paid for a pair of suspenders with turnips, and got a couple of carrots back with his purchase. At one time the first man accepted an invitation to visit a friend and go to a party with him. After seeing his friend go through the unusual preparation of blacking his boots and putting on a collar—for it was to be a very "high-toned" affair—he was surprised to see him go to a potato-bin and carefully select a dozen nice potatoes and put them into his pocket. No sooner had the two men arrived at the hall where the party was to take place than his host handed over his potatoes for an entrance ticket; and what was still more surprising, the doorkeeper, after the close of the party, gave him two onions as "change," to take home!

Snobbliness.

A lady living in an unfashionable street invited a gentleman of leisurely life to her home, because in her simplicity she thought he seemed lonely. He came, and at the close of the evening remarked to her: "I had no idea I should meet so many distinguished people at your house," his voice unconsciously emphasizing the pronoun. In a little book, "About People," Mrs. Kate Gannett Wells gives the following instance of a lack of good manners: Snobbliness is not confined to one set of people. Emphasized by fashion or literary pretensions it spreads from village to city. It exists in sardine factories and in palatial mansions; it is met with at picnics and dances as well as at dinner or conversation parties. The links are close. One of Boston's oldest families gave a reception. Two scores of other old families attended, to whom the host said: "I'll introduce you to those ladies opposite," and he moved toward them. "Excuse us," said one of the men; "the ladies are of a peasant style of beauty; it is hardly worth while." The host bowed low in recognition of their far-seeing power, adding: "Yes, they are my nieces from the country, but I will not trouble you." No apology would be received, though one was eagerly offered.

Fixed to Suit Dan'l.

During one of the college vacations, Daniel Webster and his brother returned to his father's in Salisbury. Thinking he had a right to some return for the money he had expended on their education, the father gave them scythes and requested them to mow. Daniel made a few sweeps and then stopped to wipe his brow and rest. "What's the matter, Dan?" asked his father. "My scythe doesn't hang right, sir." His father fixed it and Dan went to work again, but with no better success. Something was wrong with the implement, and it was not long before it needed fixing again, and his father said, impatiently: "Well, hang it to suit yourself." Daniel, with great composure, hung it on a near tree and retired from the field.

THE STRONG SENTIMENT FOR SCOFIELD.

Milwaukee Evening Wisconsin: The Milwaukee Herald of yesterday contained interviews with eighty-five republicans, divided as to residence among forty-six different counties of Wisconsin, on the subject of the probable choice for governor by the next republican state convention. Out of the eighty-five interviewed, there is not one who holds an office by appointment from either the governor, or a state official, a congressman, or the United States senator. Seventy-three of them think that their counties will be for Scofield. Only twelve, representing four counties, are either for La Follette or on the fence. All of these four counties supported La Follette two years ago, while among the forty-two reported to be for Scofield, there are several that did not support him two years ago, and three that were for La Follette. The people admire Governor Scofield for his straightforwardness, his integrity, his pluck and his general efficiency. They feel that the interests of the state can best be served by retaining him in charge of the administration of affairs for a second term. They are so strongly determined upon this course that any efforts to compass a different result must come to grief, bringing down upon those responsible for them the discredit which attaches to failure.

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.

To the Republican Electors of Wisconsin: A convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention, and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee, the unit ballots shall be as semi-district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified by the chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COE, Chairman.

JOHN M. EWING, Secretary.

Rock county will be entitled to 23 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

LIEUT. HOBSON RELEASED.

Heroes of the Merrimac Now on the New York.

Off Jaragua, July 6. Evening, by dispatch boat Wanda, to Port Antonio, via Kingston, Jamaica, July 8.—Assistant Naval Constructor Richmond P. Hobson of the flagship New York, and the seven seamen who, with him, sailed the collier Merrimac into the channel of the harbor of Santiago de Cuba on June 3 last, and sunk her there, were surrendered by the Spanish military authorities today in exchange for prisoners captured by the American forces.

Hobson and his men were escorted through the American lines by Capt. Chadwick of the New York, who was awaiting them. Every step of their journey was marked by the wildest demonstrations on the part of the American soldiers, who threw aside all semblance of order, scrambled out of the entrenchments, knocked over tent guys and other camp paraphernalia in their eagerness to see the returning heroes, and sent up cheer after cheer for the men who had passed safely through the jaws of death to serve their country.

The same scenes of enthusiasm were repeated upon the arrival of the men at the hospital station and at our base at Juragua. Hobson, who reached there in advance of his companions, was taken on board the New York immediately. The flagship's decks were lined with officers and men, and as Hobson clambered up her side and stepped on board his vessel, the harbor rang with the shouts and cheers of his comrades, which were re-echoed by the crews of a dozen transports lying near.

CLAIMS COWAN'S WEALTH FOR WAGES

MRS. C LACKNER WANTS PAY
FOR PAST SERVICES

Was Housekeeper For George Cowan
For Many Years Under Agreement
To Receive His Estate at His Death
—Court Holds That the Contract
Was Invalid

Mrs. Cortland Lackner, of the town of Fulton, was the plaintiff in an interesting suit that occupied the attention of Judge J. W. Sales' court during the greater portion of the day.

As housekeeper for the late George Cowan, Mrs. Lackner brought suit to recover the sum of \$2,100 and interest that she claimed was due her for labors performed by her as domestic in Cowan's homestead.

Basis of the Claim

The late George Cowan prior to his death resided in this city on Ringer avenue. A number of years ago he resided on a farm of his own in the town of Fulton, and while there hired the plaintiff in the present action as housekeeper. According to the story told by Mrs. Lackner, she went to work at the Cowan homestead as domestic some fifteen years ago with the understanding that she was to receive for her services the property owned by her landlord, which he would will her on his death. Mrs. Lackner says that at \$156 a year she had \$2,100 and interest due her. On the death of the late George Cowan, which took place in this city a few months ago, a will was left, but no provision was made in it for Mrs. Lackner.

The heartbroken ex-housekeeper then came to this city and engaged the services of Smith & Pierce who brought suit against the estate for the amount in question.

Lost Her Case

Dunwiddie & Wheeler appeared for the defense and the court after hearing the testimony decided that the estate was not liable to the amount. Mrs. Lackner will now be obliged to look elsewhere for her money.

The Cowan estate consists of land in the town of Fulton and a house and lot in this city, the total valuation of which is about \$6,000.

Gower Farm in Court

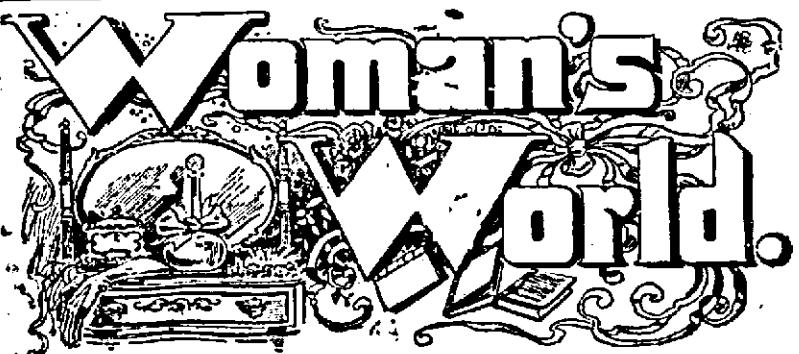

In the circuit court today in the matter of the estate of the late Daniel Gower, the court granted a modification of the judgment that the taxes should be paid out of the purchase money. There was also a question as to whether the farm in question contained 345 or 355 acres, and the court ordered that a survey of the same be made.

MILLINERY MODES.

What Is to Be Worn by the Head and Front of Fashion.

Light and bright colored tulles and gauzes, beaded and spangled with gold, silver, steel, jet and other metallic effects, have overstepped the limits usually allowed to such glittering fabrics and, not satisfied with rioting for evening wear and monopolizing dinner and ball gowns and shorter bodices, now appear at afternoon receptions. Poppy red, mauve, rose, blue, gray and white are the preferred colors for daylight wear. A charming effect is obtained with pearl gray tulles embroidered with silk of the same color and with silver and pink spangles. Red tulle

spotted with black velvet dots and embroidered with a border of black spangles is made up over red taffeta, with black satin accessories.

Flowers, quills, ostrich plumes and coq feathers are all employed in millinery and in addition some very curious effects in ribbon. Sometimes narrow ribbon is shirred over wires and used in stiff, upright loops. Sometimes several wires are run at intervals lengthwise along wide ribbon in the fashion of cording, and the ribbon is then bent into fans, wings, big, flat, stiff rosettes and other startling forms. Some of the summer models of hats are exceedingly attractive, notably a big hat of rough, white straw, trimmed with green and white gauze and immense heads of dandelions gone to seed. These are much larger than life, but otherwise a good representation of nature, being made of fibers of white down. The effect is very delicate. Another hat of an entirely different character is, more properly speaking, a toque, having a crumpled crown of gold tissue embroidered with gold and a twisted brim of tassels and choux of turquoise velvet, the trimming consisting of turquoise ostrich plumes.

The illustration given today shows a round hat made of black net shirred over a wire frame, the tufts being very full. At the back, under the brim, are two choux composed of loops of cherry satin, which nestle at either side of the empire comb worn in the hair. The front of the crown is trimmed with clusters of flat feathers upon which are applied lines of black spangles. A jeweled ornament completes the decoration.

Street Costumes and Silk Bodices For the Warm Weather.

Street gowns of woolen goods, such as cashmere or thin cloth, are trimmed with velvet or taffeta, or even the two simultaneously, tiny bands of velvet being employed on taffeta bodices, phantoms and vests. FOR A THANKSGIVING DAY.

President McKinley Issues a Proclamation.

NEXT SUNDAY IS APPOINTED.

Chief Executive Recommends That the People of the Nation Should Return Thanks for the Great Victories Vouchsafed to Their Army and Navy.

The desire to dismiss the separate vanity from the fashionable wardrobe has utterly failed. These waists are seen in immense variety this spring and are of all grades.

The illustration shows a pretty street costume having a skirt of beige cloth, which crosses in front and is cut away over an underskirt of plaid silk. The edge of the cloth skirt has an embroidered design in chestnut brown. The bodice of beige cloth is close at the back and draped in couilles at the left side of the front, the couilles being embroidered in chestnut and lined with blue velvet. The girdle of plaid silk is framed in reverse of blue velvet, and the belt is also of blue velvet. The close sleeves are of plaid silk. The hat, of manilla straw, is trimmed with blue velvet and white coq feathers.

NEW MILLINERY.

Hats and Umbrellas Favored by Fashion For the Immediate Future.

Hats for traveling and outing wear are in the alpha form, rather high crowned and with a moderately wide, curling brim. The trimming consists usually of a band and bow or rosette of satin ribbon, with a cluster of coq feathers or quills at the left side. Sailor hats are also to be worn, with a crown of medium height.

Ginza, tulie and lace, spangled, embroidered and interwoven with gold threads, compose a great number of fashionable hats and bonnets for elegant wear—at the theater, for afternoon receptions, etc. The toque form is usually employed, although there are models shown of large hats having a wire foundation covered with the tulie.

Shepherdess hats, which are promised as a fashionable novelty for summer, have a medium crown and brim, the latter dipping at the back and in front and rising at the sides. The crown is trimmed with flowers and foliage, and clusters of flowers are placed at each side under the brim.

Washington, July 8.—Following the precedents set by Abraham Lincoln during the civil war, President McKinley has issued the following:

"To the People of the United States of America: At this time, when, to the yet fresh remembrance of the unprecedented success which attended the operations of the United States fleet in the bay of Manila on the 1st day of May last, are added the tidings of the no less glorious achievements of the naval and military arms of our beloved country at Santiago de Cuba, it is fitting that we should pause and, staying the feeling of exultation that too naturally attends great deeds wrought by our countrymen in our country's cause, should reverently bow before the throne of divine grace and give devout praise to God, who holds the nations in the hollow of his hands and worketh upon them the marvels of his high will, and who has thus far vouchsafed to us the light of his face and led our brave soldiers and seamen to victory."

I therefore ask the people of the United States, upon next assembling for divine worship in their respective places of meeting, to offer thanksgiving to Almighty God, who, in his inscrutable way, is now leading our hosts upon the water to unachieved triumph, now guiding them in a strange land through the dread shadows of death to success, even though at a fearful cost; now bearing them without accident or loss to far distant climes; has watched over our cause and brought nearer the success of the right and the attainment of just and honorable peace.

"With the Nation's thanks let there be mingled the Nation's prayers that our gallant sons may be shielded from harm alike on the battlefield and in the clash of fleets, and be spared the scourge of suffering and disease while they are striving to uphold their country's honor; and, withal, let the Nation's heart be stilled with holy awe at the thought of the noble men who have perished as heroes die, and be filled with compassionate sympathy for all those who suffer bereavement, or endure sickness, wounds, and bonds by reason of the awful struggle; and, above all, let us pray with earnest fervor that He, the dispenser of all good, may speedily remove from us the untold afflictions of war and bring to our dear land the blessings of restored peace and to all the domain now ravaged by cruel strife the priceless boon of security and tranquillity."

HAWAIIAN MEASURE SIGNED.

The Island Republic Becomes a Part of the United States.

Washington, July 8.—The president signed the resolution annexing Hawaii at 7 p.m. Thursday.

It is said that the transfer of the republic to the United States can be accomplished without the slightest delay or friction. A complete internal organization already exists, civil, military, etc., and it is pointed out that this does away with the delay of organizing a government, such as occurred when California was admitted.

Empire fans, genuine and imitative, are preferred to most others at present and are used in balls, theaters and concertos.

Soft scarfs in the Roman style, with fringed ends, are the latest neckwear to accompany shirt waists. They are tied in a knot, with no bow, the ends being allowed to hang straight down in front.

An illustration is given which shows a round hat of mauve straw. The crown is surrounded by a soft drapery of velvet of a darker shade of mauve, and at each side is placed a large cluster of violets with foliage.

Oshkosh Strike Is Still On.

Oshkosh, Wis., July 8.—The strike of the woodworkers appears farther from settlement than at any time since it started. Both manufacturers and strikers have assumed a firm and defiant attitude.

In the inquest upon James Morris, the striker killed in the riot at McMullen's mill, the jury found that the deceased came to his death from a blow from a blunt instrument in the hands of Edward Casey, the engineer at McMullen's.

Evidence Against Dreyfus.

Paris, July 8.—In the chamber of deputies Thursday, replying to an interpellation of M. Castelnau on the subject of Alfred Dreyfus, the prisoner of Devil's Island, the minister of war, M. The chamber, by a vote of 672 to 2, approved the minister's statement and ordered it to be printed and placarded throughout France.

...LATE NEWS BY TELEGRAPH...

WATSON TO START AT ONCE.

Ordered to Set Out Immediately
for Spain.

HIS SQUADRON IS SELECTED.

The Ships Can Take on Board Coal and
Supplies in a Short Time—Will Soon
Be in Full Pursuit of Camara and
His Fleet.

Washington, July 8.—The president called a council of war Thursday to meet at the white house, the purpose being to review the situation and learn exactly what present conditions are and what changes, if any, should be made in the plans for the future conduct of the war. According to one of the members present it was decided to abide by the plans already laid, at least as to the general conduct of the campaign. Confirmation seemed to have been given to this statement later in the day when, after a conference with the members of the war board, Secretary Long announced to the waiting newspaper men that he had ordered Admiral Sampson to detach from his own command immediately the vessels to be embraced in Commodore Watson's eastern squadron and to direct the commodore to proceed on his mission.

The new eastern squadron will consist of the battleships Iowa and Oregon, the protected cruiser Newark and the auxiliary cruisers (carrying side armor) Dixie, Yankee and Yosemite, the colliers Aveready, Cassius, Caesar, Leonidas and Justin, and the supply boat Delmonico.

The ships are to set sail as soon as they can, coal and supply. They will start directly from the points where they are now located.

The order provides that each ship shall make her way across the Atlantic to a marine rendezvous which will be designated in sealed orders to prevent its exposure to the slightest possible danger from the enemy, and the most that is known is that it will be at some point off the Spanish coast.

It probably will not be long after that before the American squadron will be in full pursuit of Camara with his remnant of the Spanish navy. Meanwhile the gathering of the American fleet off the Spanish ports is expected to have a sobering effect upon the inflamed people.

MILES TO LEAD.

Has Already Left Washington for the Front.

Washington, July 8.—Gen. Miles left Washington last night for Santiago. He expects to land in Cuba next Monday and to assume command in person of the military operations there, unless in the meantime the physical condition of Maj.-Gen. Shafter is sensibly improved or the Spaniards have voluntarily surrendered the city.

The departure of Gen. Miles for the front involves no reflection whatever upon Gen. Shafter or that officer's conduct of the campaign. On the contrary, the achievements of Gen. Shafter are the more astonishing as he has suffered intensely from the abnormal climatic conditions ever since he landed, and for the last four or five days has been confined to his tent under the constant attendance of his staff surgeon.

The impression which has gained some currency in the last few days that friction existed between the naval and military commanders at Santiago, as evidenced by their failure to secure that essential co-operation to carry out the plan of siege adopted before Gen. Shafter left Tampa, is strongly denied.

POWERS NOT ARRANGING PEACE

Spanish Ministry, Moreover, Is Now Absolutely Without a Policy.

London, July 8.—The Sun learns from the United States embassy and the foreign office that there is absolutely nothing in the way of peace proposals by the powers. The Spanish ministry is absolutely without a future policy. The deepest feeling in Madrid is that of fear of the military politicians, who abound in the city. This feeling will prevent Senor Sagasta from offering terms of peace. Spanish emissaries abroad are pleading more anxiously than ever for some outsider to bring the powers together. This, however, will be useless unless Spain indicates that she will comply with the terms of the United States.

SOLDIERS IN CAVITE.

Eager to Fight Spaniards—Wait for the Second Expedition.

With Admiral Dewey's Fleet, Manila Bay, July 4 (via Hongkong, July 8).—The American troops under Gen. Anderson, which have reached the Philippines, are now comfortably quartered in the Spanish military barracks at Cavite, and are busy preparing for active service against the Spanish. No attack on Manila is probable before the arrival of the second detachment of troops under Gen. Greene, which is expected soon. The present force of soldiers and marines is considered insufficient to protect life and property in Manila in the event of the capitulation of that city. The soldiers, however, are all eager to begin the fighting.

Placing Guns in Position.

Siboney, July 8 (via Kingston, Jamaica, July 8).—Gen. Wheeler's headquarters are three-quarters of a mile from the walls of the city of Santiago. It is believed that there will be no

days. Guns are now being put in position to raze the Spanish trenches.

The situation at the hospital here is clearing for the first time since the fighting began. With over 600 cases the surgeons and nurses have worked unceasingly day and night. The wounded are being transferred to the Cherokee as rapidly as possible. The wounded men are showing remarkable bravery. The German military attache, Von Goetzen, said that never in any military hospital had he seen such courage under the knife.

Have Nearly a Full Quota.

Springfield, Ill., July 8.—Col. James R. Campbell, commanding the Ninth Illinois volunteers, stated last night that he expected all his men to be mustered into the service of the government by Saturday, night at the latest. The work of examining the men from the southern part of the state has progressed nicely so far this week. Some of the companies passed excellent examinations, others only fair, and some were poor. There are 1,172 men in camp with the Ninth and 1,128 with the Eighth, a total of 2,298 men, or 350 below the number required for a maximum for two regiments.

Shafter Will Aid Refugees.

General Shafter's Headquarters, July 6, via Port Antonio and Kingston, Jamaica, July 8.—The French and Portuguese consuls have continued their conference looking to the relief of the refugees from Santiago. They called on Gen. Shafter this morning, reported that the refugees were wholly destitute, and begged for American aid. The general promised to afford the exiles a limited daily supply of food at El Caney and other towns in Spanish territory, where they get nothing from Spain.

Aguinaldo Is President.

Washington, July 8.—The navy department posted this bulletin at 2:50 o'clock Wednesday:

"A cablegram from Rear Admiral Dewey dated Cavite, July 4, Hongkong, July 7, states: The United States troops have landed and have been comfortably housed at Cavite, Luzon Island. Insurgents still active."

"Aguinaldo proclaimed himself president of the revolutionary republic July 1st."

Fear Talk of Cowardice.

Madrid, July 8.—A minister, after the cabinet meeting, declared if Admiral Cervera had succeeded in escaping the Spaniards would have sued for peace. But, he added, in view of the destruction of the Spanish fleet the war must be continued, lest Spain be accused of cowardice or fear.

Dispatches received here from official sources at Havana announce that the people are enthusiastic there to continue the war.

Enemy's Methods Cruel.

Camp Siboney, Tuesday, July 6.—Via Port Antonio, July 8.—The general health of the United States troops is excellent. Not a case of yellow fever is reported.

The Spaniards are not only using explosive bullets, but also brass-covered bullets with the ends filed. The latter make most ghastly wounds, as when they strike the brass lining spreads out, tearing the flesh like barbed wire.

Navy Arranges a Hunt.

Washington, July 8.—The navy is preparing for a grand hunt throughout the West Indies. A number of Spanish war craft remain scattered through coves on the Cuban coast and lying in obscure little harbors in the West Indian Islands. These are to be hunted down and captured or destroyed and the movement is to begin immediately.

Germany at Work at Manila.

London, July 8.—A dispatch from Hongkong says the British steamer Eddie brings sensational news from Manila, which port she left on July 3. The rumor is current in Manila that German warships, under cover of darkness, have been landing large quantities of stores in Marivales bay.

Fund for Warship Planned.

Indianapolis, July 8.—Albert Lieber, of this city, has issued an appeal to the German-Americans of the United States to present the government with a modern up-to-date naval vessel, to be named the Teutonic. Chicago, New York, Indianapolis, Milwaukee and St. Louis are named as suitable points to organize this patriotic work.

Death for Guerrillas.

Headquarters in the Field, Near San-Jago de Cuba, July 6, by Way of Kingston, Jamaica, July 8.—Seven Spanish guerrillas who have been shooting for days from trees into passing ambulances and pack trains have been captured. It is thought likely they will be executed.

More Men for Camp Alger.

Camp Alger, Va., July 8.—It is rumored that the Eighth Illinois, Fifth Massachusetts and four regiments of Pennsylvania troops have been ordered here, and that some of them are already on the way. Headquarters cannot confirm the report, however, and there is doubt of its entire accuracy.

No Attack Upon Manila.

Hongkong, July 8.—The British colonel Eddie, which left Manila July 3, has arrived here. She reports that no attack had been made upon the town up to the time of her leaving there. Four German, three British, two French and one Japanese warship

SPAIN READY TO GIVE UP.

Diplomats Believe She Will Soon Sue for Peace.

NEW CABINET IS PREDICTED.

Naval Attaché of the American Embassy at London Wires That the Spaniards Will Act This Coming Week—Nothing Received Direct from Madrid.

Washington, July 8.—The strong current of opinion expressed in diplomatic circles is that Spain will sue for peace within a month. Reports have reached the president from various sources that Spain is weakening, and they have caused a deep impression.

Lieut. Colwell, naval attaché at the American embassy in London, has wired a positive prediction that Spain will ask for peace within the coming week. Nothing, however, has come directly from Spain or from the Spanish government. A dispatch was received here that the pope had resumed his efforts with Spain to induce her to recognize the inevitable.

According to one authority there is to be a new cabinet in Spain, with Marshal Martinez Campos at the head as the successor of Sagasta, and that the fall of the present cabinet will mark the end of the war, as the new cabinet will be organized on the basis of immediate negotiations for peace.

Spain is represented to be willing to part with Cuba and the Philippines, permitting them to become independent, but not willing to surrender Porto Rico outright. She recognizes her responsibility for indemnity, and is said to propose that the United States shall hold Porto Rico as a pledge until it is paid. Such a proposition would not be accepted. The United States will take Porto Rico as a permanent possession in lieu of all claims for indemnity. Cuba will be given a stable and independent government, as provided in the resolutions of congress, under the protection of the United States.

Concerning the Philippines, only one thing is settled, and that is that they cannot return to Spanish rule. These are practically the only terms upon which Spain can obtain peace.

LIFEBOATS CUT OFF.

Adds to La Bourgogne Horror—Number of Lost Placed at 503.

New York, July 8.—A telegram was received at the French line office

Thursday stating that the survivors of La Bourgogne would arrive in Boston by boat today. They will probably come on to New York by rail.

Acting General Manager Paul Faguet gave out the following list of the lost:

First cabin, 88; second cabin, 113; steerage, 246; officers and crew, 118. Total, 665.

A telegram was received from Halifax which stated that the wreckage on board La Bourgogne proved to be such an obstruction that passengers and crew were unable to reach the starboard lifeboats. There was, however, a great rush to the port boats. The crew endeavored to launch these, but owing to the vessel's heavy list to port it was impossible to do so. The telegram stated that so far as could be ascertained in Halifax the officers and crew did their duty nobly. Most of the sailors who were saved were picked up in the water, and not taken from lifeboats. M. Faguet received another telegram stating that the lifeboat No. 2 was taken possession of by some foreigners, presumably sailors, who were in the steerage. It is presumed that if any violence was shown toward struggling passengers by any one it was by these sailors, and not by members of the crew of La Bourgogne.

Pedagogues at Washington.

Washington, July 8.—The thirty-seventh annual meeting of the National Educational Association opened Thursday night at Convention hall. President J. M. Greenwood, of Kansas City, was in the chair. The list of speakers included the most distinguished educators in the country. President Greenwood reviewed the work of the association for the past year. He said the organization now numbers 10,000 members and has a surplus capital of \$30,000, with an annual income of \$30,000 or more.

Please for the Canal.

Washington, July 8.—In the senate

Thursday Mr. Morgan announced that he proposed to try to get up his bill for the construction of the Nicaraguan

canal by the United States. Mr. Turpie

of Indiana sharply opposed the idea

suggested by Mr. Morgan. He main-

tained that the opponents of the bill

had a right to be heard briefly.

Enchanted Rings of the Greeks.
The enchanted rings of the Greeks and ancients were formed of the gems assigned to the several planets, each set in its appropriate metal. Thus the sun was diamond or sapphire in a ring of gold; the moon, crystal in silver; Mercury, magnet in quicksilver; Venus, amethyst in copper; Mars, emerald in iron; Jupiter, cornelian in tin; and Saturn, turquoise in lead. These rings, if worn in the birth month of the possessor, furthered the progress of his love affairs, and acted as a talisman in many ways. Even in our present day, in various countries, a superstition still exists that to each month is dedicated a precious stone, and that any one, by wearing constantly the stone of his birth month, insures for himself great and unfailing good luck. So to January the garnet is dedicated. The amethyst to February; the bloodstone to March; to April, the sapphire; to May, the emerald; to June the agate; to July, the ruby; to August, the sardonyx; to September, the chrysolite; to October, the opal; to November, the topaz, and to December, the turquoise.

Grocery Side Talk.

If there is one thing more than another the average woman is particular about it is the groceries she pays for and the treatment she receives from her local purveyor. She has a right to be particular, too, as she usually is held responsible by the rest of the family for the eatables on the table, and their purchase being a daily duty she prefers trading with a store that never disappoints her in any way.

Our high standing among lady traders is through our untiring efforts to do exactly by them as we agree to do--never to disappoint them in quality, price or service. We make it a point to please people no matter if it might be easier for us to do otherwise, and we find it pays. Your money back always if you are not satisfied. Come and find out if we don't do more than you really expected.

Our Wealth is Grass.
Mr. Scribner of the department of agriculture, has recently collected some very interesting facts about American grasses. He says: "We have better grasses and a greater variety of them native to our soil than we can ever get from Europe." Of clovers we have no less than sixty species, all native to the country, and there is an equal number of different "blue grasses," besides twenty "grazing grasses" and a great variety of others. Yet, Mr. Scribner says, hardly more than a dozen of all those kinds of native
